

ABSTRACT

A worktable having a leg supports (2 & 3) linked by strut (4) in normal working mode may have its leg supports repositioned one with another for alternative working modes, here shown with leg support (3) providing an extension to the top frame support 1, an extension leg (18) connected by strut (4) supports leg support (3) in a horizontal plane and a sliding element (20) providing the same essential form features as the top frame support (1) permitting the operational footprint of jaws (7 & 9) to be extended over the elongated top frame support provided by leg support (3).
